

Abrasive cloth, multibond

CS 409 Y

Properties

| | |
|---------------|------------------|
| Bonding agent | Resin |
| Grain | Zirconia alumina |
| Coating | Close |
| Backing | Y-polyester |

Product benefit

Aggressive abrasive behaviour due to self-sharpening zirconia alumina
- Prevents heat tinting on stainless steel - Cool grinding due to additional multibond - Minimal clogging when used on aluminium and aluminium alloys

Materials

Stainless steel ●

Applications

- Stainless steel processing industry
- Steel construction
